AMPTEC 620LK-HR DATASHEET

The AMPTEC 620LK-HR is the high resolution version of the 620LK. It is an affordable and highly accurate electrical bond tester. Additionally, the 620LK-HR has all the ranges of the standard 620LK, as well as both the lower 20 mΩ and higher 20 Ω ranges. Originally designed for Lockheed Martin, the 620LK product line comes from a long lineage of ultra-safe resistance testing equipment that now occupies a more commercialized space.

AMPTEC RESEARCH is an ISO 9001:2015 Certified Accredited Quality Management System Company
